

GREEN BURIAL

MOUNT PLEASANT CEMETERY

is the upper Midwest's only Cemetery
certified as a Provider of the Green Burial Council.

Why is it Important?

The Green Burial Council was founded to provide a standard for the Green Burial movement, a standard rooted in transparency, accountability and ecological responsibility. To receive certification a Cemetery must promote Green Burial practices, provide encouragement to the public to make environmentally responsible choices, and to make those options accessible and affordable. We at Mt. Pleasant are committed to these principles.
